For Backend Development Team

NFLTMS - User Flow Documentation

National Firearm Licensing & Tracking Management System

Ghana Police Service | Ministry of Interior

Document Version: 1.0

Date: December 31, 2025

Prepared For: Backend Development Team

Purpose: Complete user journey mapping for frontend implementation

Table of Contents

- [Executive Summary](#)
- [System Overview](#)
- [Legal Framework & Parties Involved](#)
- [Individual Gun Owner Flow](#)
- [Dealer Registration & Operations Flow](#)
- [API Integration Requirements](#)
- [State Management & Data Flow](#)
- [Key Differences: Individual vs Dealer](#)
- [Appendices](#)

1. Executive Summary {#executive-summary}

1.1 Document Purpose

This document provides comprehensive user flow documentation for the NFLTMS platform, detailing every step from user registration to license issuance and ongoing operations for both individual gun owners and licensed dealers.

1.2 Key Stakeholders

- Individual Gun Owners** - Citizens applying for firearm licenses
- Licensed Dealers/Importers** - Businesses selling firearms
- Ghana Police Service** - Application review and approval
- Ministry of Interior** - Policy oversight and dealer approvals
- System Users** - All authenticated platform users

1.3 Core User Journeys

This documentation covers two primary user types:

- Individual Gun Owner Journey** (9 stages, ~21 days processing)

- Account creation via KYC
- License application
- Police verification
- License issuance
- Firearm acquisition
- Ongoing compliance

2. Dealer Journey (5 stages, ~45-60 days processing)

- Pre-qualification
- Business registration
- Facility inspection
- License approval
- Inventory & sales operations

2. System Overview {#system-overview}

2.1 Platform Components

2.2 Technology Stack

Frontend: - Framework: React 18+ with TypeScript - Routing: React Router v6 - State Management: Redux Toolkit + RTK Query - UI Library: Material-UI (MUI) v5 - Forms: React Hook Form + Zod validation - File Upload:

React Dropzone

Backend API: - Base URL: `https://national-firearm-licensing-tracking.onrender.com/api/v1` - Authentication: JWT (Access + Refresh tokens) - All endpoints documented in existing API specification

2.3 Design Principles

- 1. **KYC-First Approach** - Users express intent before account creation
- 2. **Progressive Disclosure** - Show information as needed per step
- 3. **Auto-save** - Draft applications saved automatically
- 4. **Mobile-First** - Responsive design for all screen sizes
- 5. **Accessibility** - WCAG 2.1 AA compliance
- 6. **Real-time Feedback** - Immediate validation and status updates

3. Legal Framework & Parties Involved {#legal-framework}

3.1 Governing Legislation

- **Arms and Ammunition Act, 1972 (NRCD 9)** - Primary legislation
- **Arms and Ammunition Regulations, 1972 (L.I. 1140)** - Implementation rules
- **Police Service Act, 1970 (Act 350)** - Police authority

3.2 All Parties in the Process

Party	Role	System Access
Applicant	Apply for license	Public portal + User dashboard
Ghana Police - Regional	Initial verification & home visits	Admin dashboard (regional view)
Ghana Police - HQ	Final approval, license issuance	Admin dashboard (full access)
CID	Criminal background checks	Read-only access to checks
Medical Facilities	Issue medical certificates	External (certificates uploaded)
NIA	Ghana Card verification	API integration
Firearm Dealers	Sell firearms, maintain records	Dealer dashboard
Customs (GRA)	Import clearance	External (documents uploaded)
Ministry of Interior	Policy oversight, dealer approvals	Admin dashboard (oversight)
Security Agencies	Bulk license applications	Agency dashboard

3.3 Document Requirements

For Individual License: 1. Ghana Card (verified via API) 2. Medical Certificate (<6 months old) 3. Police Clearance Certificate 4. Proof of Address (utility bill/rental agreement) 5. Passport photos (2 copies) 6. Storage facility photos 7. Character references (2 persons) 8. Game license (hunters) / Shooting club membership (sport shooters)

For Dealer Registration: 1. All individual license requirements (director must be licensed) 2. Business registration certificate 3. TIN certificate 4. Property documents (ownership/lease) 5. Facility photos (exterior, interior, vault) 6. Security system documentation 7. Fire safety certificate 8. Insurance policy (minimum GHS 500,000) 9. Bank statements (proof of capital) 10. Directors' licenses

4. Individual Gun Owner Flow {#individual-flow}

Stage 1: Discovery & Intent Capture

Entry Point: Landing page (/)

User Actions: 1. User reads about firearm licensing requirements 2. Reviews fees and processing timeline 3. Clicks "Apply for License" button

Route: `/applications/intent`

UI Screen:

```
What brings you here today?  
  
○ Apply for NEW firearm license  
  First-time gun owner  
  Timeline: 21 days | Fee: GHS 400-500  
  
○ Renew existing license  
  Before expiry to avoid penalties  
  Timeline: 3-5 days | Fee: GHS 200  
  
○ Register firearm I already own  
  Regularize unregistered firearm  
  
○ Replace lost/damaged license  
  Get replacement certificate  
  
[Continue]
```

Backend Integration: - No API call yet - Intent saved in session: `sessionStorage.setItem('userIntent', 'NEW_LICENSE')` - Redirect to KYC start

Stage 2: KYC & Account Creation

This is a **critical stage** where users create accounts through identity verification.

Step 2.1: KYC Start

Route: `/kyc/start`

Authentication Required: No

UI Screen:

```
Welcome to NFLTMS
Let's verify your identity
```

```
Email or Phone Number:
```

```
[_____]
```

```
Already have an account?
```

```
[Login here]
```

```
[Get Started]
```

API Call:

```
// Check if user exists
GET /kyc/get-session?identifier=0244123456

Response (if new user):
{
  "exists": false,
  "message": "User not found, proceed with registration"
}

// Start KYC
POST /kyc/start
Body: {
  "emailOrPhone": "0244123456"
}

Response:
{
  "sessionId": "kyc_session_xyz123",
  "otpSent": true,
  "medium": "SMS",
  "message": "OTP sent to 0244*****56"
}
```

Frontend Actions: - Store `sessionId` in state - Redirect to OTP verification page - Display masked phone number

Step 2.2: OTP Verification

Route: `/kyc/verify-otp`

Authentication Required: No (uses sessionId)

UI Screen:

```
Enter Verification Code
Sent to: 0244*****56

[ ] [ ] [ ] [ ] [ ] [ ]

Didn't receive code?
[Resend OTP] (available in 30s)

[Verify]
```

API Calls:

```
// Verify OTP
POST /kyc/verify-otp
Body: {
  "sessionId": "kyc_session_xyz123",
  "otp": "123456"
}

Response:
{
  "userId": "usr_abc123",
  "tempToken": "temp_token_def456",
  "kycStatus": "PHONE_VERIFIED",
  "nextStep": "GHANA_CARD_VERIFICATION",
  "message": "Phone verified successfully"
}

// If OTP is wrong:
Response (400):
{
  "error": "INVALID_OTP",
  "message": "Incorrect verification code",
  "attemptsRemaining": 2
}

// Resend OTP
POST /kyc/resend-otp
Body: {
  "sessionId": "kyc_session_xyz123"
}

Response:
{
  "otpSent": true,
  "message": "New OTP sent"
}
```

Frontend Actions: - Auto-focus next input on digit entry - Submit automatically when 6 digits entered - Store `userId` and `tempToken` - Redirect to Ghana Card verification

Step 2.3: Ghana Card Verification

Route: `/kyc/ghana-card`

Authentication Required: No (uses tempToken)

UI Screen:

```
Verify Your Identity

We'll use Smile ID to verify your
Ghana Card and take a selfie

[Smile ID Widget Embedded]

1. Take a selfie
2. Scan Ghana Card (both sides)
3. Verify match

[Start Verification]
```

Integration Flow: 1. Frontend embeds Smile ID widget 2. User completes biometric verification 3. Smile ID sends webhook to backend 4. Frontend polls for verification status

API Calls:

```
// Poll for verification status
GET /kyc/user-status?userId=usr_abc123

Response (while processing):
{
  "kycStatus": "GHANA_CARD_PENDING",
  "message": "Verification in progress"
}

Response (after webhook):
{
  "kycStatus": "VERIFIED",
  "ghanaCardData": {
    "ghanaCardNumber": "GHA-123456789-1",
    "fullName": "Kwame Mensah",
    "dateOfBirth": "1985-03-15",
    "gender": "MALE",
    "address": "CA-123-4567, Accra, Greater Accra",
    "photo": "base64_encoded_photo"
  },
  "nextStep": "PASSWORD_SETUP"
}
```

Webhook (Backend receives):

```
POST /webhooks/smile-id
Headers: {
  "X-Signature": "webhook_signature"
}

Body: {
  "userId": "usr_abc123",
  "verified": true,
  "ghanaCardNumber": "GHA-123456789-1",
  "fullName": "Kwame Mensah",
  "dateOfBirth": "1985-03-15",
  "address": "CA-123-4567, Accra",
  "confidence": 0.98
}
```

Frontend Actions: - Show loading state during verification - Poll every 3 seconds (max 20 attempts) - On success, show preview of extracted data - Redirect to confirmation page

Step 2.4: Confirm Ghana Card Data

Route: `/kyc/confirm-details`

Authentication Required: No (uses tempToken)

UI Screen:

Confirm Your Information

Please verify the details from your Ghana Card are correct

Full Name:
Kwame Mensah

Ghana Card Number:
GHA-123456789-1

Date of Birth:
March 15, 1985 (40 years old)

Address:
GA-123-4567, Accra, Greater Accra

Contact Information:
Phone: 0244123456
Email: [kwame@email.com]

☒ Information is correct

[Continue]

API Call:

```
// No API call - just confirmation  
// Email is added by user, saved to proceed
```

Step 2.5: Password Setup

Route: `/kyc/password-setup`

Authentication Required: No (uses tempToken)

UI Screen:

Secure Your Account

Create a strong password

Password:
[] 

Password Strength: Strong 

Requirements:

- ✓ At least 12 characters
- ✓ One uppercase letter
- ✓ One lowercase letter
- ✓ One number
- ✓ One special character

Confirm Password:
[] 

[Complete Setup]

API Call:

```
POST /auth/password/setup
Headers: {
  "Authorization": "Bearer temp_token_def456"
}
Body: {
  "password": "SecureP@ssw0rd123"
}

Response:
{
  "success": true,
  "message": "Account setup complete",
  "user": {
    "id": "usr_abc123",
    "email": "kwame@email.com",
    "fullName": "Kwame Mensah",
    "ghanaCardNumber": "GHA-123456789-1",
    "role": "OWNER",
    "kycStatus": "COMPLETE",
    "hasCompletedOnboarding": false
  },
  "accessToken": "eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9...",
  "refreshToken": "eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9..."
}
```

Frontend Actions: - Store both tokens in localStorage - Update Redux auth state - **AUTO-LOGIN** - Do not redirect to login page - Redirect to user type selection page

Stage 3: User Type Selection

Route: `/onboarding/select-user-type`

Authentication Required: Yes

Purpose: Bridge between KYC completion and application start

UI Screen:

👋 Welcome, Kwame Mensah!
Your account has been verified

Ghana Card: GHA-123456789-1

What would you like to do today?

🔫 Apply for Individual Firearm License

Get licensed to own a pistol, rifle, or
shotgun for personal use

Fee: GHS 400-500

Timeline: 21 working days

[Select →]

📋 Register as Licensed Dealer

Import and sell firearms commercially

⚠ Requires gun owner license first

Fee: GHS 2,000-7,000

[Select →]

🛡 Register Security Agency

Manage firearms for security personnel

[Select →]

🔄 Renew Existing License

Already licensed? Renew here

[Select →]

[Skip for now]

API Call:

```
// Update user's onboarding intent
PATCH /users/me
Body: {
  "onboardingIntent": "INDIVIDUAL_LICENSE",
  "hasCompletedOnboarding": true
}

Response:
{
  "success": true,
  "user": {
    ...updated user object
  }
}
```

Frontend Actions: - On "Individual License": Redirect to </applications/new> - On "Dealer": Check if user has gun

license, if not show error modal - On "Skip": Redirect to `/dashboard` (empty state)

Stage 4: License Application - Multi-Step Form

Route: `/applications/new`

Authentication Required: Yes

This is a **7-step wizard** with auto-save functionality.

Step 4.1: Application Type & Firearm Selection

Progress:  Step 1 of 7

UI Screen:

```
New License Application

Select Firearm Type:
☐ Pistol/Handgun
  Personal defense, sport shooting
  License Fee: GHS 500

☒ Rifle
  Hunting, sport shooting
  License Fee: GHS 400

☐ Shotgun
  Hunting, clay shooting
  License Fee: GHS 350

Purpose of Ownership:
☒ Hunting
☐ Sport Shooting
☐ Personal Security
☐ Business (Security Guard)

Do you already own this firearm?
☐ Yes - Need to register it
☒ No - Will purchase after license

[Next]
```

API Call:

```
// Create draft application
POST /applications
Body: {
  "type": "NEW",
  "firearmType": "RIFLE",
  "purpose": "HUNTING",
  "alreadyOwned": false,
  "status": "DRAFT"
}

Response:
{
  "applicationId": "app_xyz789",
  "trackingId": "NFL-2025-001234",
  "status": "DRAFT",
  "createdAt": "2025-12-31T10:00:00Z"
}
```

Frontend Actions: - Store `applicationId` in state - All subsequent steps update this application - Auto-save on field blur

Step 4.2: Firearm Details

Progress: [●●]———— Step 2 of 7

UI Screen:

Firearm Specifications

Make/Manufacturer:
[Remington ▼]

Model:
[Model 700]

Caliber:
[.308 Winchester]

Serial Number (if known):
[] Optional

Storage Details:
Describe your secure storage facility

I have a steel gun safe bolted to the floor of my bedroom closet.
Only I have the key...

(Min 50 characters)

Storage Location Address:
☒ Same as Ghana Card address
☐ Different address (provide proof)

[Back] [Next]

API Call:

```
// Update application
PATCH /applications/app_xyz789
Body: {
  "firearmDetails": {
    "make": "Remington",
    "model": "Model 700",
    "caliber": ".308 Winchester",
    "serialNumber": null,
    "storageDetails": "I have a steel gun safe...",
    "storageAddress": "SAME_AS_GHANA_CARD"
  }
}

Response:
{
  "success": true,
  "application": {
    ...updated application object
  }
}
```

Step 4.3: Document Upload

Progress: [●●●] — Step 3 of 7

UI Screen:

Required Documents

1. Medical Certificate △ REQUIRED
From approved hospital, <6 months

📎 Drop files here
or click to upload

✓ medical_cert.pdf (2.3 MB)
[✓ Verified] [× Remove]

2. Police Clearance △ REQUIRED
✓ police_clearance.pdf (1.8 MB)

3. Proof of Address △ REQUIRED
✓ ecg_bill.pdf (890 KB)

4. Storage Photos △ REQUIRED
✓ safe_photo1.jpg, safe_photo2.jpg

5. Game License (Hunters) ✓ Optional
✓ game_license.pdf (1.2 MB)

6. Character References △ REQUIRED
2 letters required
[Upload files]

[Back] [Save Draft] [Next]

API Calls:

```
// For each document upload
POST /uploads/licence/app_xyz789/documents
Content-Type: multipart/form-data

FormData:
{
  "file": <binary>,
  "documentType": "MEDICAL_CERT"
}

Response:
{
  "documentId": "doc_abc123",
  "fileName": "medical_cert.pdf",
  "fileSize": 2359296,
  "documentType": "MEDICAL_CERT",
  "uploadedAt": "2025-12-31T10:15:00Z",
  "url": "/uploads/documents/doc_abc123"
}

// List uploaded documents
GET /uploads/licence/app_xyz789/documents

Response:
{
  "documents": [
    {
      "documentId": "doc_abc123",
      "documentType": "MEDICAL_CERT",
      "fileName": "medical_cert.pdf",
      "fileSize": 2359296,
      "uploadedAt": "2025-12-31T10:15:00Z"
    },
    ...
  ]
}

// Delete document if needed
DELETE /uploads/documents/doc_abc123
```

Frontend Validation: - File types: PDF, JPG, PNG only - Max size: 5MB per file - Virus scan on upload (backend) - Show upload progress bar - Preview uploaded files

Step 4.4: Address & Contact Verification

Progress: [●●●●]———— Step 4 of 7

UI Screen:

```
Verify Your Address

Residential Address:
● Use Ghana Card address
  GA-123-4567, Accra, Greater Accra

○ Use different address
  (Upload proof of address)

GPS Coordinates (Optional):
[ ]
[📍 Use Current Location]

Region: [Greater Accra ▼]
District: [Accra Metropolis ▼]

Police Station for Home Visit:
[Accra Central Police Station ▼]

Emergency Contact:
Name: [ ]
Phone: [ ]
Relationship: [Spouse ▼]

[Back] [Next]
```

API Call:

```
// Get available regions
GET /regions

Response:
{
  "regions": [
    {
      "id": "region_1",
      "name": "Greater Accra",
      "districts": [
        { "id": "dist_1", "name": "Accra Metropolis" },
        { "id": "dist_2", "name": "Tema Metropolis" }
      ]
    },
    ...
  ]
}

// Update application
PATCH /applications/app_xyz789
Body: {
  "addressInfo": {
    "useGhanaCardAddress": true,
    "gpsCoordinates": "GA-123-4567",
    "regionId": "region_1",
    "districtId": "dist_1",
    "preferredPoliceStation": "Accra Central Police Station",
    "emergencyContact": {
      "name": "Ama Mensah",
      "phone": "0244987654",
      "relationship": "SPOUSE"
    }
  }
}
```

Step 4.5: Background Information

Progress: [●●●●●] — Step 5 of 7

UI Screen:

```
Additional Information

Employment Status:
● Employed
○ Self-employed
○ Unemployed
○ Retired

Employer/Business Name:
[Ghana Natl Petroleum Corp]

Occupation/Position:
[Geologist          ]

Previous Firearm Ownership:
Have you owned a firearm before?
○ Yes ● No

Criminal History:
Have you been convicted of any crime?
○ Yes ● No

Medical Conditions:
Any condition affecting firearm use?
○ Yes ● No

[Back] [Next]
```

API Call:

```
PATCH /applications/app_xyz789
Body: {
  "backgroundInfo": {
    "employmentStatus": "EMPLOYED",
    "employer": "Ghana National Petroleum Corp",
    "occupation": "Geologist",
    "previousOwnership": false,
    "criminalHistory": false,
    "medicalConditions": false
  }
}
```

Step 4.6: Fee Payment

Progress: [●●●●●] — Step 6 of 7

UI Screen:

Application Fee

License Type: Rifle License

Application Fee: GHS 400.00

Processing Fee: GHS 50.00

Total Amount: GHS 450.00

Payment Method:

- ☒ Mobile Money
 - ☐ MTN Mobile Money
 - ☒ Vodafone Cash
 - ☐ AirtelTigo Money

Phone Number:

[0244123456]

- ☐ Bank Card
 - Visa, Mastercard

[Back] [Proceed to Payment]

API Calls:

```

// Get fee structure
GET /settings/licence-fees

Response:
{
  "fees": {
    "newPistol": 500,
    "newRifle": 400,
    "newShotgun": 350,
    "renewal": 200,
    "processingFee": 50,
    "latePenalty1to6months": 50,
    "latePenalty6to12months": 150
  }
}

// Initiate payment
POST /payments/initiate
Body: {
  "applicationId": "app_xyz789",
  "amount": 450,
  "paymentMethod": "MOBILE_MONEY",
  "provider": "VODAFONE",
  "phoneNumber": "0244123456"
}

Response:
{
  "paymentId": "pay_123456",
  "status": "PENDING",
  "provider": "VODAFONE",
  "message": "Payment prompt sent to your phone",
  "expiresAt": "2025-12-31T10:35:00Z"
}

// Poll payment status
GET /payments/pay_123456

Response (pending):
{
  "paymentId": "pay_123456",
  "status": "PENDING",
  "amount": 450
}

Response (success):
{
  "paymentId": "pay_123456",
  "status": "SUCCESSFUL",
  "amount": 450,
  "paidAt": "2025-12-31T10:25:00Z",
  "transactionId": "VF-TXN-20251231102500",
  "receipt": "/payments/pay_123456/receipt"
}

// Webhook from payment provider (backend receives)
POST /payments/webhook/vodafone
Body: {
  "transactionId": "VF-TXN-20251231102500",
  "paymentId": "pay_123456",
  "status": "SUCCESS",
  "amount": 450,
  "phone": "0244123456"
}

```

Frontend Flow: 1. User clicks "Proceed to Payment" 2. API initiates payment 3. User receives mobile money prompt on phone 4. User approves on phone 5. Frontend polls payment status every 3 seconds 6. On success,

show success message and proceed

Step 4.7: Review & Submit

Progress: [●●●●●●] — Step 7 of 7

UI Screen:

Review Your Application

}

// If invalid/expired:
Response (400):
{
  "valid": false,
  "reason": "LICENSE_EXPIRED",
  "message": "This license expired on 2025-12-31"
}
```

Dealer Processes Sale:

```
// See Dealer Flow section for complete sale process
POST /firearms/{firearmId}/transfer
Body: {
  "firearmId": "firearm_SN12345",
  "newOwnerId": "usr_abc123",
  "salePrice": 5000,
  "transferFee": 50,
  "paymentMethod": "CASH"
}
```

Sub-stage 9.2: Register Acquired Firearm

Route: `/firearms/register-acquired`

UI Screen:

Register Your Firearm

⚠ Register within 7 days of purchase

Firearm Serial Number:
[SN-123456789]

Date of Purchase:
[Jan 25, 2026 📅]

Dealer:
[SafeArms Ghana Ltd ▼]

Purchase Receipt/Invoice:
[📎 Upload Receipt]
✓ receipt.pdf

Your License:
NFL-2026-001234 (Rifle) ✓

[Submit for Verification]

API Call:

```
POST /firearms/register
Body: {
  "licenceId": "lic_xyz999",
  "serialNumber": "SN-123456789",
  "purchaseDate": "2026-01-25",
  "dealerId": "dealer_123",
  "receiptUrl": "/uploads/receipts/receipt_001.pdf"
}

Response:
{
  "firearmId": "firearm_001",
  "serialNumber": "SN-123456789",
  "status": "PENDING_VERIFICATION",
  "message": "Please bring firearm to police station for physical verification"
}
```

User must visit police station for final verification.

Stage 10: Ongoing Compliance & Renewal

Renewal Reminders (Automated)

90 Days Before Expiry:

Email Subject: License Renewal Reminder

Your firearm license NFL-2026-001234 expires in 3 months (January 19, 2029).

Renew online now to avoid penalties:
<https://nfltms.gov.gh/licences/NFL-2026-001234/renew>

SMS: "NFLTMS: License NFL-2026-001234 expires in 3 months. Renew at nfltms.gov.gh to avoid penalties."

30 Days Before:

Urgent reminder with increased urgency

After Expiry:

"Your license has expired. Late renewal penalties apply."

Renewal Process

Route: `/licences/{licenceId}/renew`

API Call:

```
POST /licences/lic_xyz999/renew
Body: {
  "medicalCertificateUrl": "/uploads/docs/medical_2029.pdf",
  "storageStillSecure": true,
  "addressUnchanged": true
}

Response:
{
  "renewalApplicationId": "renewal_001",
  "status": "PENDING_APPROVAL",
  "fee": 200,
  "estimatedApproval": "3-5 days"
}
```

Simplified renewal - only requires: - Updated medical certificate (if >2 years old) - Payment of GHS 200 - Confirmation of address/storage - Quick police verification (no home visit unless flagged)

5. Dealer Registration & Operations Flow {#dealer-flow}

Stage 1: Pre-Qualification Check

Entry Point: Landing page → "Licensed Dealer" card

Route: `/dealer/pre-check`

UI Screen:

Dealer Registration Requirements

Before applying, you must have:

- ✓ Personal firearm owner license (active)
- ✓ Registered business in Ghana
- ✓ Tax Identification Number (TIN)
- ✓ Physical shop or warehouse
- ✓ Minimum capital: GHS 50,000
- ✓ Insurance policy (min GHS 500,000)
- ✓ Secure storage facility (vault/safe)

Application Fee: GHS 2,000

Annual License Fee: GHS 5,000

Processing Time: 45-60 days

Do you meet all requirements?

- ☐ Yes, proceed to registration
- ☐ No, I need gun owner license first
- ☐ No, still preparing

[Continue]

Logic:

```
if (selection === "need_license_first") {
  redirect("/applications/new");
} else if (selection === "yes") {
  // Check if user has active gun owner license
  GET /users/me

  if (!user.hasActiveLicense) {
    showModal("You must have an active gun owner license first");
    redirect("/applications/new");
  } else {
    redirect("/dealer/register");
  }
}
```

Stage 2: Account Creation

If user doesn't have account, goes through **same KYC flow** as individual (Stage 2 above).

After KYC, on User Type Selection page, selects "Register as Dealer".

Stage 3: Dealer Registration - Multi-Step Form

Route: `/dealer/register`

This is a **6-step wizard**.

Step 3.1: Business Information

Progress: ● ————— Step 1 of 6

UI Screen:

Business Information

Company Name:

[SafeArms Ghana Limited]

Business Registration Number:

[BN-123456789]

Tax Identification Number (TIN):

[TIN-987654321]

Year Established:

[2020 ▼]

Business Type:

☒ Retail Dealer

☐ Importer

☐ Both Dealer & Importer

Estimated Annual Sales:

☐ 1-50 firearms

☒ 51-200 firearms

☐ 200+ firearms

[Next]

}
```

6. API Integration Requirements {#api-requirements}

6.1 Third-Party Integrations

Integration	Purpose	Endpoints
Ghana Card (NIA)	Identity verification	Via Smile ID webhook
Smile ID	Biometric verification	Widget + webhook
Mobile Money	Payments	MTN, Vodafone, AirtelTigo APIs
SMS Gateway	Notifications	Hubtel or Africa's Talking
Email Service	Notifications	SendGrid or AWS SES

6.2 Internal APIs

All backend endpoints are documented in the existing API specification at: <https://national-firearm-licensing-tracking.onrender.com/api/v1>

Key endpoint categories: - `/kyc/*` - KYC and onboarding - `/auth/*` - Authentication - `/applications/*` - License applications - `/licences/*` - License management - `/firearms/*` - Firearm registry - `/dealers/*` - Dealer operations - `/payments/*` - Payment processing - `/uploads/*` - Document management - `/admin/*` - Police/admin operations - `/reports/*` - Reporting

6.3 Webhook Endpoints (Backend Receives)

```
// Smile ID verification result
POST /webhooks/smile-id
Headers: { "X-Signature": "..." }
Body: { userId, verified, ghanaCardData }

// Payment confirmation
POST /payments/webhook/vodafone
POST /payments/webhook/mtn
POST /payments/webhook/airtel
Body: { paymentId, status, transactionId }
```

7. State Management & Data Flow {#state-management}

7.1 Redux Store Structure

```

{
  auth: {
    isAuthenticated: boolean,
    user: User | null,
    tokens: { access: string, refresh: string }
  },

  kyc: {
    sessionId: string | null,
    currentStep: string,
    ghanaCardData: object | null
  },

  application: {
    currentApplicationId: string | null,
    draftData: object | null,
    currentStep: number,
    uploadedDocuments: Document[]
  },

  dealer: {
    dealerId: string | null,
    inventory: Firearm[],
    sales: Sale[]
  },

  ui: {
    loading: boolean,
    notifications: Notification[]
  }
}

```

7.2 Session Storage (Temporary)

```

sessionStorage:
- userIntent: "INDIVIDUAL_LICENSE" | "DEALER" | "RENEWAL"
- kycProgress: { step, sessionId }
- applicationDraft: { step, data }

```

7.3 LocalStorage (Persistent)

```

localStorage:
- accessToken: string
- refreshToken: string
- user: User object (serialized)

```

8. Key Differences: Individual vs Dealer {#comparison}

Aspect	Individual	Dealer
Prerequisites	None	Active gun owner license
Application Fee	GHS 400-500	GHS 2,000 + GHS 5,000
